

Sexuality During Childhood and Adolescence

Children want to talk with their parent about sexuality. For parents, this can be very anxiety-producing to say the least. Learn how to have open dialogue throughout your child's growing-up years, because when children are educated, confident, and comfortable with sexuality, they are likely to be good sexual decision makers. An educated child is an empowered child.

This is a parent information session for *Our Whole Lives*, choose a class that fits your schedule:
